

# HEALTH AND SAFETY ADVISORY SERVICE

Get expert guidance in creating a safe and compliant workplace while reducing risks and costs for your small business. The Sheffield Association of Federated Employers (SAFE) is providing this service benefit to its policyholders and members. Contact Safelink Consulting for complimentary assistance in identifying and addressing workplace hazards.

## **Prioritize Workplace Safety and Take a Proactive Approach**

Doing so can prevent accidents resulting in cost savings, ensure compliance, as well as enhance employee morale and improve reputation.

01

## **Gain a Better Understanding of OSHA Standards for Your Industry**

Understand relevant OSHA standards to ensure compliance, enhance safety, and reduce risks, creating a safer and more productive workplace.

02

## **Discover Ways to Minimize Risk of Employee Injuries and Illnesses**

Fewer injuries mean lower costs for workers' compensation, healthcare, and potential legal expenses, as well as reduced downtime.

03

## **Seek Assistance for an Employee Safety Concern or OSHA Inspection**

Receive expert guidance to effectively address issues as well as avoid OSHA penalties.
